The News.

As yet no despatch has passed over the trans-Atlantic wires, but the apparatus is being prepared with all possible speed. Throughout the country preparations are being made for a grand celebration, as soon as it shall have been announced that the Queen's message has been recieved.

By the arrival of the steamship *Niagara*, we have Liverpool dates to the 31st of July. A brief synopsis of her news will be found in our telegraph column. The Liverpool Flour Market was dull and lower, and Wheat remained firm but quiet.

We have further returns from the Kansas Election. The majorities everywhere throughout the Territory, are large against the English proposition.

The heat at St. Louis and other parts of the country has been intense for several days past, and deaths from sun-stroke are very numerous.

The death of Archbishop Walch is announced.

The steamer *St. Louis* brings a batch of interesting news from California. A collision between a party of miners and Indians had occurred on the Columbia river, in which 18 of the gold hunters and 100 of the red skins were killed. A difficulty had also taken place on the Mariposa property, between a company of miners and some of Col. Fremont's men, which, however, did not result in bloodshed. Reports from Frazer River continue favorable, and the emigration from California thither, is still large. The *St. Louis* brings over a million in gold dust from the new mines, mostly for England. The details of the news will be found interesting.

In the New York Market yesterday, there was another advance on Flour of five to ten per cent, but Wheat was unchanged. In our own market Oats were higher and Wheat firm at previous prices. The rain of Tuesday night had the effect of purifying the atmosphere, and yesterday the weather was more temperate than for upwards of a week past.

Laying the Atlantic Cable.

As the telegraph failed to bring us the full report of Mr. Field to the New York Associated Press, we copy, this morning, from the *Tribune* of Monday last, the very interesting details of the *Niagara's* trip, and the positive announcement of the successful landing of the Cable at *both ends*. It will be seen that the *Niagara* was favored with very fine weather and excellent luck in a matter where a single squall, or the slightest accident might have been fatal to success. The time was happily chosen, and corresponds almost exactly with the period recommended by Lieutenant Maury in the letter he wrote to the Company on the 28th of March 1857, and of which the following is an extract:

"Nevertheless, the enterprise upon which you are engaged is an important one. Good weather for it is very desirable, nay, almost indispensable; and these barometric anomalies are suggestive. Perhaps it would be wise for the steamers not to join cables until after the 20th of July.—I think between that time and the 10th of August the state of both sea and air is usually in the most favorable condition possible; *and that is the time which my investigations indicate* as the most favorable for laying down the wire. I recommend it, and wish you good luck.

Judicious Counsel.—The Janesville *Gazette* concludes an article, rebuking the *News* and *Wisconsin* for their intemperate and impolitic assaults upon Gov. Randall, with these words:

We write these things in a friendly feeling towards Milwaukee. Janesville, from its facilities for communication with every part of the country, has no especial local interest in the determination of the question. But it *has* an interest, as every other place, and every person in the State has, in successfully resisting the unfounded claims of a mammoth corporation which has disgraced the State, and now seeks to retrieve its justly fallen fortunes at the expense of every legal and equitable right. When the La Crosse company fulfils its part of the contract, it will then be time to ask a fulfilment on the part of the State. The ribaldry of the Milwaukee *News* and the senseless recommendation of the *Wisconsin* to call a meeting to give an expression to a *Milwaukee* feeling, and combine the political sentiment with the business interests of the city in a crusade against the executive of the State, can only react upon the best interests of that city. If the people of Milwaukee wish this a purely Milwaukee issue, they will find other other sections of the State ready to meet it, and when they find themselves beaten in such a contest, they will realize to their own detriment what is now apparent to everybody outside their city.

This is the view that the *Sentinel* has taken of the matter, and further reflection satisfies us of its correctness. Milwaukee has nothing to gain, but everything to lose by engaging in such a contest as the *News* and *Wisconsin* seem so anxious to provoke.

An Unjust Aspersion.—The *News*, having been taken to task by some of its German friends, for certain remarks upon the manner in which Sunday is spent by many of our citizens, makes a reply, in which the following occurs:

In 1856, the German Republicans of this city held Fremont meetings on the Sabbath, and we heard no complaints from the Protestants on that account. They probably did not fully approve of the practice, still they made no fuss about it. They supposed that Fremont might gain some votes by it.

This slur upon "the Protestants" of our city is certainly unwarranted. Complaints *were* made of the meetings referred to, but by Catholics, as well as by Protestants, and by Republicans as well as by Democrats.

In Honor of the Cable.—On Thursday a case of assault and battery was on trial in one of the New York Courts, and was nearly finished when the announcement of the successful laying of the Atlantic Telegraph was made, "whereupon," says the New York *Herald*, "counsel for the prisoner, with more than ordinary gravity, intimated to the Judge that his client should be liberated in honor of the great event. The jury, however, deemed it best to convict him; but the Recorder, in passing sentence, said smilingly, that in honor of the great event he would only send the prisoner six months to the Penitentiary."

A Telegraph Feat.—In Boston, on Friday, the noon hour was struck on all the bells in the city connected with the Fire Alarm Telegraph, from the Telegraph Office in Portland. This event proves that in the event of a day of National jubilee as is proposed, the bells of all the principal cities of America, England and the Continent, might be set to ringing at the same absolute instant of time.

Important Decision.—The Washington *Star* brings us the following announcement of two important decisions by the Secretary of the Interior, affecting this State:

"The Secretary of the Interior has just given two important decisions relative to railroad grants. One of these refers to the railroad from 'Madison, by way of Portage City, to St. Croix Lake or River,' and the question decided is, that the refusal of the Governor of the State to certify to the completion of sections of twenty continuous miles of the road will not be a basis of action with the Department, in depriving the Company of the benefits of the grant, until ten years after the passage of the law making the grant.

"Also, that the certificate of the Governor to the completion on the accepted route of any section of twenty continuous miles of the said road, will be received and filed by the Department, and entitle the Company to the benefits of the grant of land made to the State for the construction of said road.

"The other decision refers to the St. Croix and Lake Superior Rail Road, from St. Croix River or Lake to the west of Lake Superior and Bayfield. The decision is, in this instance, that in the event of a refusal of the Governor of the State to give a certificate recognizing the route of the road, there must be a delay in the enjoyment, by the Company, of the benefits of the grant of lands made for the construction of said road; and that the General Government, in consideration of said refusal and delay, is not warranted in withholding the lands from market to await an adjustment of the dispute between the State and Company. This is especially the case when it is remembered that citizens of the State are urging the General Government to restore to market the lands reserved by the grant for the uses of the road."

Telegraphic Messages for London.—The Boston *Traveler* reports that two business messages from New York merchants, to their correspondents in England, passed through the American Telegraph office on Thursday, en route for London. One of them, containing fifty-seven words, paid through, fifty-seven dollars, and the other twenty seven words, for which twenty-seven dollars were paid. The messages which are first sent to the office will take precedence when the telegraph is in working order.

Divorces in the Western States.—It is estimated, says a writer in the Evangelist, that there are more than two thousand persons of both sexes now temporarily resident in Indiana, Iowa and other Western States, for the express purpose of obtaining divorces upon grounds which would not avail them in the States of their actual residence.

Successful Balloon Jaunt.—Mr. Godard and three passengers went up from Buffalo Friday, and made a most successful trip of 100 miles in 2 hours and 25 minutes. The party landed in Mendon, Monroe County.

Correspondence of the Press and Tribune.

Further from the Kansas Election.

Lawrence, Aug. 5, 1858.

A few additional returns have been received preserving the same ratio of about twelve against one, as at first indicated. The new figures are:

	For Prop.	Ag'st Prop.
Osawkee	15	93
Oskaloosa	25	75
Shawnee	41	80
Eudora	0	137
Brownsville	1	127
Coal Creek	0	51
Blomington	1	187
Twin Mound	1	18
Tecumseh	29	167
Kickapoo	101	68
Delaware	75	79
Grasshopper Falls	6	166
Hartville	63	77

The whole vote against the infamous swindle will be from 12,000 to 15,000, and by the usual rules governing population, that will give us a population entitling us to a Representative in Congress to-day. Of course, application will be made at the next Congress louder and more significant than ever. Kansas will be an eye-sore to the Democracy for the next twelve months.—The last blow has been given to Lecompton, and when it is discovered who and what survives, the Kansas battery will be turned in the direction to do the best execution. Vigil.

Kansas Election—Free State Foreigners not Permitted to Vote.

Wyandotte, Aug. 5.

To the Editor of the Missouri Democrat:

The election has just closed; the result is as follows: Proposition rejected, 208; accepted, 84. Wyandotte district has been divided since the last election, hence the small vote—the whole district will stand about 400 rejected to 100 accepted.

The "Democratic" law makers of Kansas cut off more than one hundred Free State voters in this precinct alone, by requiring foreigners to have their full papers. No news from any other district, except Shawnee, where the vote is about equal, against eight hundred majority under the Calhoun dynasty.

Shocking Accident at Hastings—Two Ladies Killed—Another Seriously Injured—A shocking accident occurred on Saturday morning at Hastings, by which two ladies were instantly killed, and another was very seriously injured. It appears that three ladies, named Mrs. Dean, Mrs. Lyell, and Miss Lyell, were riding in a one-horse wagon down Jackson Avenue, in Hastings, when the belly band broke, and the shafts of the waggon were jerked over the horse's head, frightening him in such a manner that he started at full speed down the hill, and turning a short curve, threw the ladies out of the waggon, down an embankment, breaking the neck of one, fracturing the skull of another, and injuring the third. The ladies resided in New York. The bodies of Miss Lyell and Mrs. Dean, were conveyed to the city this morning. Mrs. Lyell's injuries are not dangerous. The full names of the deceased are Anna B., daughter of John H. Lyell; and Phebe Ann, wife of James T. Dean, and daughter of the late Truman Hopkins.—*N. Y. Commercial, Aug. 8.*

The Land Grant Bonds.—The N. Y. *Tribune* of Monday, in its money article, says:

In the Bond market the business was not very large, but prices were generally steady.—The principal interest was centered in the Land Grant Bonds. The La Crosse went to 22, and the Fond du Lac to 23½ bid—a further improvement of 1½ per cent. The demand for both descriptions was quite active.

Steamboats.

For Chicago.—Steamer *Traveller* leaves every morning, (excepting Sunday,) from Johnson & Olmsted's Dock, at 9 o'clock.

The Steamer *Arctic* leaves every Sunday evening at 9 o'clock, from Johnson & Olmsted's Dock.

For Two Rivers.—The steamer *Cleveland* leaves every morning, (excepting Sunday,) at 7½ o'clock, from same place, for Two Rivers, stopping at Port Washington, Sheboygan and Manitowoc.

For Green Bay.—The steamer *Arctic* leaves for Green Bay, from Johnson & Olmsted's dock, every Wednesday, at 8 o'clock P. M.

For Grand Haven.—The steamer *Forester* leaves Kellogg & Strong's dock every morning, (Sundays excepted,) at 8 o'clock for Grand Haven—Detroit & Milwaukee R. R. connection.

For Buffalo.—A line of propellers run to and from Buffalo, one of which leaves this city daily.

For Ogdensburgh.—A tri-weekly line of propellers also run to Ogdensburgh.

Griffis & Burns, at the foot of East Water street, are the Ticket Agents for the above lines.

Bad Condition of the County Jail.—Our county jail, it is well known, is one of the most loathsome holes in the whole country. It is a place unfit for a human being to occupy at any time, but more especially at this season of the year. It is usually crowded to excess, and the miseries which the inmates are subjected to, though often spoken of by the city press, we are pleased to see are, at last attracting public attention. A number of our citizens, who have been examining its horrors, have called a public meeting, to be held on Saturday night, to take some action in regard to the matter.

The present jail is a disgrace alike to the enterprise and humanity of our people, and we trust that the movement now on foot may be the cause of awaking the whole community to the necessity of having a new and more commodious and suitable building. If anything can be done to better its condition, it only temporarily, it should be attended to.

A Much Needed Rain.—The fine thunder shower of Tuesday night was needed, and appreciated too, in this city. The uninterrupted and scorching heat for upwards of a week previous, was beginning to create a most pestiferous odor in the alleys, by-ways, gutters, and stagnant pools. The Garden vegetables, with the exception of that which was constantly watered by artificial means, began to lose its luster; cisterns began to give out, and house-wives were fretting for want of soft water, and a little rain was needed on all hands. It has come, and we are all the better for it. The air to-day is purer and fresher than it has been for some time past; vegetation looks more lively, and nice rain water is to be had in abundance. The effect in the country, we presume, is not less gratifying.

Not Appreciated.—The labors of the *Wisconsin* to improve the morals of its contemporaries seem to be as little appreciated by the country as by the city press. For instance:

Funny.—The Milwaukee *Wisconsin* reproves the press of Milwaukee and elsewhere for publishing articles having an indelicate allusion or liable to an indelicate construction. The *Wisconsin* is more noted for this feature than any other press in the State.—*Janesville Gazette.*

☞ *The Daily Wisconsin* a few days since had in one column a severe rebuke of a smutty item in the other city papers, and in an adjoining column had a dissertation on the practice of "bundling," which concluded with the remark that "marriage did not always follow indulging in the exercise, but the boys didn't care, for the fun paid for the trouble." Satan's rebuke of sin is first in one's mind.—*Madison Argus.*

Enterprising.—We learn that Mr. L. J. Higby, whose warehouse was destroyed by the fire of Tuesday morning, had the same day made arrangements for the immediate erection of a new elevator warehouse, on the site of the old building. An army of workmen are already employed clearing away the rubbish of the fire, and the materials for the building of the new warehouse have already been procured. The work will be commenced before the ashes of the other will have scarcely grown cold, and will be pushed forward with all possible speed, and the building, it is expected, will be ready for use in less than one month. This exhibits a spirit of enterprise truly commendable.

Flourishing.—We are informed that the keepers of Roulette Tables and Faro Banks are doing a flourishing business here. Many who are least suspected of gambling propensities, it is said, patronize these disreputable concerns to an alarming extent, and numerous young men, who are in arrearages for their board and washing, may be found nightly in the fashionable gaming places, squandering away their limited means. The next step will probably be to rob their employers to replenish their sporting funds. The gambling room and the State Prison are closely allied.

Grand Excursion on the Lake.—It will be seen from our advertising columns that a delightful excursion is announced to come off next Monday, on the fine clipper bark *Badger State*, accompanied by the steam tug *Decatur*. It is intended that all the details of the affair shall be satisfactory, and a very pleasant time is confidently anticipated. Captain Cross, of the *Badger*, and Captain Olmsted, of the *Decatur*, are just the men to manage such an excursion admirably. They both have troops of friends who will gladly be with them on this occasion.

Receiving Grain in Bulk.—Considerable of the grain which arrives by the La Crosse and M. R. R., now comes in bulk, and is taken direct from the cars into the Elevator of Mr. Higby's new warehouse at the Depot. This method saves a vast deal of trouble, expense and waste, which is incident to the bagging and carting system. The completion of the new warehouse on the M. and M. R. R.—which is progressing rapidly—will give us facilities for receiving grain and shipping it, not surpassed by any other City in the North-West.

The Pic Nic To-day.—Should the weather prove favorable, the children and friends of the Summerfield M. E. Church will have their annual pic-nic to-day. The procession will start at 9 o'clock from the church, on the corner of Van Buren and Biddle streets, preceded by Merrill's Band, go out to the beautiful grove on the north point, about a mile and a half from the starting point. If the weather is not propitious, the party will be postponed until to-morrow.

Police Court Yesterday.—Tobias Anderson was fined $5 for being intoxicated.

John O'Connel and Mary O'Connel plead guilty to the charge of disorderly conduct, and were discharged on suspension of judgment, subject to good behavior.

The case of Elias Ruskoff, charged with being disorderly, was adjourned to August 15th.

Richard Armstrong and W. M. Mackey, were convicted of disorderly conduct and fined $5 and costs, each.

Correction.—By mistake the compositor marked our notice yesterday, of the new Hotel in the Fourth Ward, as a local advertisement.—The article was written in the office, and should have appeared without mark, as an editorial.

A Delightful Summer Jaunt.

A small party of gentlemen from this city, will start in a few days for a Summer trip to the Northern shore of Lake Superior and the Kamanatekwoya river; thence up that stream, to the remarkable, but, as yet little known, Falls of Kakabikka. A more desirable Summer journey could not be planned, than this, to a region altogether unhacknied and unexplored, except by fur traders, trappers, and voyageurs.

Aside from the remarkably picturesque objects to be visited on this trip, the party will have opportunities to obtain many beautiful and rare specimens of Geology, Minerology, &c. The Northern shore of the Lake, particularly about the mouths of the streams debouching into it, are rich in varieties of agates and other gems.

The plan is to proceed up the Lake, to some suitable point, where a number of Indians, or voyaguers, can be employed with batteaux, to transport the party to Fort William, on Thunder Bay, and thence in any direction, as circumstances and choice may direct. They will go prepared with tents, provisions, &c., to camp out, and rough it in true voyageur style. Several artists will be of the party, prepared to sketch every object of interest on the trip.

Two or three gentlemen more, can join the party; the expenses of the trip will be divided *pro rata*. Further information, if desired, can be had by applying at this office.

A Valuable Invention.—Mr. Vail, of Berlin, has invented and patented an improvement in covered dishes used for dishing up eatables of various kinds for the table, which is truly useful. It consists of the application of material to the inside of the dish cover, by which all the steam, gasses, &c., arising from the food, are completely absorbed, and while the articles are kept hot they are at the same time kept free from the unpleasant and deleterious effects of the moisture which necessarily gathers profusely in the inside of the ordinary covers and runs back again in the form of warm water into the food. We have given Mr. Vail's invention only a short and partial trial, but are satisfied it is all he claims it to be, and as it can be applied very cheaply to all dishes now in use, it should and we presume will have a wide adoption.

We copy the above from the *Free Democrat* of last evening, and having given Mr. Vail a very fair practical trial, we have no hesitation in fully endorsing all that the writer says in its praise.

New Church in the Fifth Ward.—A meeting of the congregation of the South Presbyterian Church, (Rev. Mr. Day,) in the Fifth Ward, was held on Monday night, at which it was decided to erect a new church edifice. A committee was appointed, consisting of Messrs. Boclk, Crandall, Captain Jones, O. Parsons and Capt. Fitzgerald, to present a plan and arrange the preliminaries, to report at a future meeting. We also understand that steps have been taken by the society to adopt the Congregational creed, and become a Church in that persuasion.

That "Despatch."

Editors Milwaukee Sentinel:—*Gents:—The despatch from Queen Victoria*, (taken from your paper,) I have distributed from Prairie du Chien to St. Paul, to the *immense edification* of the receivers and friends, always with acknowledgements of your paper. Cady,
Steamer Milwaukee.
Prairie du Chien, Aug. 18.

French Day and Boarding School.—We invite attention to the card of Madame Seibert, in this morning's *Sentinel*. Her school for young ladies opens for the Fall term on the first Monday in September. To those parents who wish to have their daughters thoroughly instructed in the French and German languages, or in other branches of a polite education, we confidently commend Madame Seibert's school as the best in our State, and probably in the North-West.

Firemen's Excursion.—Pioneer Hook & Ladder Company No. 1, Charles E Provost, Foreman, intend making a three day's excursion to Milwaukee, on the 18th of September. All who go in for real pleasure should not fail to accompany them on this excursion. The boys of No. One have the reputation of being "Pioneers" on "a good time," and spare no pains in having it. They will be the guests of Excelsior Hook and Ladder Company No. 1 of Milwaukee, who know how to use their guests.—*Chicago Dem.*, of yesterday.

Turtle Soup at the Newhall House.—Green Turtle soup will again be served to the guests of the Newhall House, at dinner *to-day*. Those who partook of the last turtle dinner at the Newhall will need no urging to repeat their visit, while those who missed that entertainment will do well to improve the present opportunity.

Perilous Ascension.—M'lle "Anne," an actress connected with Spalding & Rogers' Circus, is to trundle a wheelbarrow on a half inch wire from the ground to the top of a flag staff over the tent. This feat is to be performed on the afternoon of the two days that the circus remains here.

An Opportunity to get into Business.—By a notice in another column, it will be seen that an old establishment and one of the best wholesale and retail grocery establishments in the city, is offered for sale, the parties entering into a new business. The chance is a good one for anybody who wishes to get into business speedily.

Promenade Concert at Melms' Garden.—A very pleasant entertainment is offered this evening at Melms' Garden, Fifth Ward. Music, Illuminations and Refreshments are included in the programme. Admittance only 10 cents.—See advertisement.

A Forty Horse Team.—An interesting feature in connection with Spalding & Rogers's extensive circus, which is to be here next Tuesday and Wednesday, will be the grand chariot containing the band, drawn by *forty horses*, which will be driven through the principal streets by Maj. Droth.

Anniversary of the Light Guard Cadets.—That spirited young company, the Light Guard Cadets, celebrate their anniversary by a parade in the afternoon and a collation at "the Home," in the evening.

A Farm to Sell or Exchange.—J. S. Fillmore has a good farm on Lisbon Plank Road, with a good House, two good Barns, Orchard, Well, and Cistern, for sale or to exchange for city property within 3 miles city limits.

The Walker's Point Bridge.—This bridge, which has been undergoing repairs for some weeks past, is now almost completed, and will be ready for use in a day or two at the farthest.

☞ Caleb Wall has a great sale of furniture on Friday morning. It is good furniture, well taken care of, Mahogany, &c., &c.

American House, P. Kane & Son, Proprietors, Milwaukee, July 5, 1858.

Editors of Sentinel:—*Dear Sirs:*—Having been informed that a story has been circulated in this State, by some evil disposed person, that we have reduced the price of board to six shillings per day, and such report having a tendency injure the reputation of our House and business, we would here state that we are keeping no person for any less than One Dollar per day; neither do we intend to. But we shall adhere strictly to our advertised rates of *One Dollar per day*, and no less.

"I Have Saved $500."—This remark, made by a gentleman the other day, whose strength had been restored by a bottle of Prof. DeGrath's, genuine, 'ELECTRIC OIL,' would apply to thousands, especially to the man or woman who depends on self-exertion for support. No person can save money who is half the time sick, lame, rheumatic, and suffering from pain; but if timely caution were used, and before consumptions become sealed from cold and exposure, the application of this "Electric Oil" should be made, hundreds of dollars would be saved, and life would be made tolerable also. Ask Mark Gregg, Esq., 45 Marshall street, Philadelphia, and hundreds more who have been cured. N. B.—No charge for advice.

☞ For sale by Bosworth & Sons, and J. H. Tesch, Milwaukee; Fahnestock & Davis and Reed & Co., Chicago; and by Druggists and Merchants generally throughout the country.

FOR SAN FRANCISCO,
AND FRASER'S RIVER DIRECT!

1858.

The California, New York, & European Steamship COMPANY,

HAVE purchased the Steamships HERMANN and WASHINGTON, formerly of the Southampton and Bremen line. These ships were constructed under Government inspection, of the best material, (live oak frames) and are in all respects well known as the most safe and comfortable steamships out of the port of New York.

The Company's steamship HERMANN, Capt Edward Cavendy, will positively sail on the 21st of August inst, from Pier No. 6 North River, foot of North Moore st., New York, for San Francisco and Fraser's River touching at Rio Janeiro and Valparaiso. Only a limited number of passengers and amount of freight will be taken, for which early application must be made. The accommodations of this steamer are unsurpassed.

For freight or passage apply to the office of the Company, No. 323 Greenwich street, New York.

LATEST NEWS!

BY MAGNETIC TELEGRAPH

Later from California.

New York, Aug. 11.

The steamer *St. Louis*, from Aspinwall, arrived this P. M. She left the P. M. of the 3d, and brings California dates to 20th July.

She reports *Star of the West* left Aspinwall same time for this city, via Key West, with mails and $1 500,000 in specie.

The *Golden Age* brought down from San Francisco upwards of $1,800,000. Some $25,000 of the dust was from Frazers river destined for England.

Advices from the Frazer River gold mines continued to be favorable, and emigration was as brisk as ever, although the excitement had somewhat subsided. Nearly 40 vessels left San Francisco between the 3d and 18th of July, for the new gold regions.

Other gold discoveries are reported farther North, on the side of the Natchez.

The Olympia Pioneer states that, in the attack before reported, of Indians upon a party of miners going up the Columbia, there were eighteen white men and upwards of one hundred Indians killed.

There has been a collision between the Mercer Mining Co. in Mariposa Co., and some of Col. Fremont's men. The Mining Co. made an armed attack upon Fremont's men, who were working lead quartz at Pine Tree Drift. Fremont's men defended themselves, holding the place with arms in their hands for several days. Application being finally made to the Governor, who was preparing to call out the military, the assailants withdrew, leaving Fremont in possession.

The Democratic party in California is making preparations for September election. There was a desperate effort making for the possession of the nominating convention between the administration men and the Douglas democrats under the lead of Senator Broderick.

The steamer *Commodore*, which left San Francisco the 8th of July, for Victoria, returned the 14th in a sinking condition. She had a large freight and many passengers. Dates from Oregon are to the 10th.

The Legislature had chosen two U. S. Senators, namely: Gen. Lane and De Lazor Smith.

Nothing important from the Sandwich Islands.

California markets were not quite so firm, owing to the many arrivals from the States and the heavy importations for the fortnight. There was, however, a large business in cured meats and flour, till within a few days, when business became dull, owing to discouraging advices from the Frazer regions. Coal had further advanced on the opening of the fortnight, but met a heavy decline towards the close, owing to the withdrawal of two steamers from the Frazer River route. Large transactions in coffee also sold into second hands, and were held at an advance. Provisions of all kinds are advanced, particularly pork and bacon, of which large purchases had been made of lots to arrive. Butter drooping. Lard heavy and declined. Money active and abundantly supplied. Receipts of gold dust increasing.

News from the Isthmus is unimportant. The Saranac had gone to San Juan del Sur; the Merrimac and Decatur to Callao; the Vandalia to the Islands.

Dates from Valparaiso to June 30th, and Callao to July 12th.

The case at Callao of Lamer Fitzgerald and several other Americans, who were seized some time ago as fillibusters by the Peruvian Gov't, have been disposed of by sentencing all the parties to imprisonment and hard labor for 15 years each. A difficulty occurred at Callao on the 17th of July, between the French and Peruvian vessels, which threatened at one time to be serious; the French admiral had demanded an apology and reparation from the Peruvians.

A violent shock of an earthquake was felt on the p. m., of the 12th. 33 American ships are in port.

Later from Europe—Arrival of the Niagara.

Halifax, Aug. 11.

The royal mail steamer *Niagara*, from Liverpool, at about noon on Saturday the 31st inst., arrived at this port this afternoon. Lines are working very badly and but a brief synopsis of the news is yet received.

The steamship City of Washington, from N. Y. on the 17th ult., arrived at Liverpool on the 29th.

The British Parliament was rapidly winding up its business, preparatory to the prorogation.

The Goodwood Cup was won by Saunterer. The only American starter was Charleston, who came in last but one.

Later advices had been received from India. Bombay dates are to the 3d of July.

The re-capture of Gwalior by the British is confirmed. The fugitives were hemmed in between the various British divisions.

The British had gained a brilliant victory in Lucknow, in which the rebels lost 600 men.

The Continental news is unimportant.

Liverpool Market.—Cotton—market is dull and prices 1-16a1-18 lower; sales of the week 88,000 bales; market closing firm at the decline. Manchester market was quiet but steady.

Liverpool—Breadstuffs—Richardson, Spence & Co. quote flour dull, and 6d lower; Philadelphia and Baltimore 21s6da22s; Ohio via the north 22sa22s6d; do via New Orleans 22s6da23s6d; Wheat firm but quiet; Red Western 5s5da6s2d; Red Southern 5s10da6s6d; Red Southern 5s10da6s2d; White Western 6sa6s5d; White Southern 6s9da7s2d; Corn dull, nominal; yellow 33sa34s; White 32s6da38s. The weather had been favorable for the crops. The brokers, and other circulars say that corn was slower on the week.

Latest.—Saturday noon.—Messrs. Richardson, Spence & Co. quote the breadstuffs market generally dull, but quite unchanged.

Provisions.—Bigland, Athaye & Co., Richardson, Spence & Co., James McHenry, and others, quote Beef in but little enquiry, and prices make Pork firm, Bacon steady, Lard buoyant. Holders demand an advance which checks business. Sales 57sa57s 6d for refining qualities; 60s was demanded for prime; Tallow nominal Richardson, Spence & Co., quote provisions dull.

Produce.—The brokers and other circulars, quote Ashes dull; Sugar buoyant, and leals 6d higher; Coffee firm.

London Markets.—Messrs. Baring Bros. quote breadstuffs quiet and quotations barely maintained. Wheat 44sa47s, red 43sa45s.—Flour 20sa24s. Sugar buoyant at 6da1s higher.

Messrs. Baring Bros. quote the London money market easy. Consols for money and account were quoted at the close on Friday at 95⅝a96.—The bullion in the Bank of England had increased 5,000 pounds.

Latest.—London, Saturday noon. Consols are better, being quoted at 96⅛.

American Stocks.—Messrs. Baring Brothers report the market for American securities as generally inactive, except for Illinois Central, which were in improved demand and higher. Shares 23; discount bonds 81a83; freeland bonds 78a80; Erie R R 75; 1st mortgage 67a69; Penn Central 6s 1st mortgage 89½a90¼; Mass 5s bonds 102¼. Messrs. Bell & Son quote a limited business, at previous rates. The Times of Friday reports the actual business for money as follows: Ill Central R R shares 23a24; Erie R R 7s 70; Penn 6s 1st mortgage 90⅝.

Kansas Election.

Leavenworth, Aug. 11.

Per U. S. Express to Boonville.—The following is the official vote of 11 Counties, as far as received, with the entire vote of only seven: Shawnee, 752 majority against bill; Atchison, 336; Doniphan, 520; Johnson, 272; Jefferson, 284; Leavenworth, 1748; Douglas, 1740; Franklin, 205; Brown, 188; Breckenridge, 135; Reilly, 127. Total majority so far as heard from 6,358 against the bill.

Steamer Europa Sailed, &c.

Boston, Aug. 11.

The steamship Europa sailed from here at noon to-day with 42 passengers for Liverpool, and 8 for Halifax. She took no specie.

The pilot boat America arrived at Newburyport yesterday, with three men, whom she picked up in a ship's boat. They make the following report:

They belonged to the bark Egdar, of N. Y., Capt. S Peke, which vessel struck on Seal Island Ledge on Thursday, and sunk in twenty minutes. The 2d mate, Chas. N. Rowden, of Boston, Samuel Wilkins, of Saco, and Edward Hopewell, a boy, of New Haven, who were with the watch on deck, took the long boat, with the compass, a little water, and no lantern, but no provisions.

On Saturday they made Cape Elizabeth, and thence proceeded to the place where they were found. Capt. Pike, Mr. Saunders, the mate, the cook, and two men, left the wreck in a small boat without provisions or water. It was very foggy at the time, and the Captain's boat has not been seen since.

New York, Aug. 11.

The Common Council have appointed a special committee to superintend preparations for a public celebration, as soon as a telegram from the Queen reaches the President.

Washington Matters.

Washington, Aug. 11.

The Mechanics part of the Patent Office Report takes four volumes, two of which have just been issued. The Agricultural part will not be ready till about the 1st of October.

The joint commission to run a boundary line between the U. S. and Texas, will commence work as soon as the former receive information that the latter are ready to start, which probably will not be for several weeks.

Lieut. Beal's expedition to construct a wagon road from Fort Smith to the Colorado, authorized under a recent act of Congress, is organized. He will use camels.

Steamboat Collision.

Boston, Aug. 11.

The steamer Montreal, hence for Portland came in collision last night with the steamer Lewiston, from Portland for this place. Both boats received considerable damage, but no person was injured, and both arrived here this morning.

Death of Archbishop Walch.

Halifax, Aug. 11.

Archbishop Walch died here last night. His interment will take place on Saturday. He was 54 years old.

A gas explosion occurred at the Albion Coal Mines to-day, by which 2 men were killed and many others wounded.

Grand Ocean Cable Celebration to be had at Jersey City.

New York, Aug. 11.

The Jersey City Common Council passed a resolution last evening to have a public celebration and a general illumination, on the day when the first despatch passes over Trans-Atlantic wires; also to tender a public dinner to Capt. Hudson and the other officers of the *Niagara*.

EYE AND EAR INFIRMARY!

MEIGS CASE, M. D.,

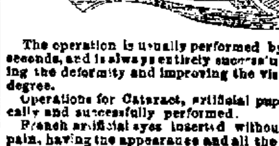

OPERATOR UPON THE EYE & EAR.

LECTURES ON THE EYE.

STRABISMUS, or Cross Eye, may be defined to be a want of harmony between the two eyes, which exists to such an extent that one of them does not move with the other, but is turned away involuntarily to the other side.

It is an affection so apparent as scarcely to require explanation, and is a most unpleasant defect, particularly to young people, and never fails to impair the sight more or less.

It consists essentially of a contraction of one of the six muscles which fix the ball as represented in the cut.

The operation is usually performed by me, in a few seconds, and is always entirely successful, both in relieving the deformity and improving the vision to a great degree.

Operations for Cataract, artificial pupil, &c., scientifically and successfully performed.

French artificial eyes inserted without operation or pain, having the appearance and all the motions of the natural eye.

All the recent discoveries and improvements in the diagnosis and treatment of ocular and aural diseases, will be recoursed to for the restoration and preservation of the most valuable of the senses, sight and hearing.

Persons from a distance will be provided with boarding houses by making application at the office immediately on arriving in the City.

Operations, medicines and advice gratuitously given to persons who are really indigent, during the unoccupied moments of the operator.

Gov. Randall and the Land Grant.

We publish this morning, and commend to the attentive consideration of our readers, the letter of Gov. RANDALL to the Commissioner of the General Land Office, in reply to one from that officer, requesting the Governor to "make known at length to the Department his objections to proceeding with the adjustment of the Grant." This Governor RANDALL has done with frankness and ability. He states his "objections" fairly, and supports them by arguments that are certainly plausible, and, as many will think, conclusive. No fair-minded man, after reading the Governor's letter, can hesitate to dismiss, as alike unfounded and unjust, the imputations so freely and recklessly cast upon the Governor's motives by the *News* and *Wisconsin*.

NEWSPAPER EXORCISMS.—If there were any such thing as Providential intercession in behalf of Newspapers, we would begin to hope that our neighbors of the *News* and the *Wisconsin* were beginning to feel the influences which have been at work, of late, throughout the country. The various ways in which these beneficences are being manifested are remarkable. There is a good story related of a family somewhere in Pennsylvania, one of whom being bitten by a rattlesnake, was quickly brought to repentance; whereupon the minister, seizing upon this fortunate omen, beseeched that a rattlesnake of the biggest kind might straightway bite the "old man," for there was little hope that anything less would do the business for him. This new element in revival gives us hope of the *News*. From the dread it entertains of an active politician in this city, who never rattles until the very moment he is ready for a spring, we are led to believe that it has had some wholesome lessons in that line. Already the political morals of that paper exhibit an improvement. It seems to be running hither and thither from the wrath to come, and seeking diligently after the true church. The prayers of all good politicians are invited in its behalf.

The *Wisconsin* has come to realize the very vanity of all parties and politics. It sits down in despair and asks you where, in your candid judgment, a paper of its extreme morality and great domestic proclivities shall find rest. We think the *Wisconsin* is gradually discovering a haven secure from all storms, where it may quietly pursue its own speciality. The times are waxing bad. This city has grown so large that there are considerable numbers of men and women who leave undone that which they ought to do, and do that which they ought not to do; and it will be gratifying, indeed, to those who love that kind of literature, to know that the *Wisconsin* has left off politics, and put on incorruption, just in the most fortunate season to devote its great energies to the discussion of these things.

THAT "K" POSTSCRIPT.—The *News*, which judges others by itself and therefore entertains a very contemptible opinion of the press generally, favors us with the following notice in its yesterday's issue:

The *Sentinel* knew that the *State Journal* lied when it stated that the Postcript was in the hand writing of Mr. Kilbourn. That P. S. was concocted in this city by the *Sentinel's* master, who conveyed it to Madison and procured its publication in the *Journal*. And yet, in the face of these facts, the *Sentinel* pretends that it was imposed upon, and gave credence and currency to it "when it was not entitled to either." This is—

"To palter in a double sense."

If the editor of the *News* really believes that the *Sentinel* "knew" the "postscript" in question to be a forgery when we published it, he must be a greater fool than knave. If he does not believe, and yet asserts this, he must be a greater knave than fool.

THE HIGHEST CRIME.—MR. BUCHANAN's mouthpiece thus pointedly expresses his notions of the criminality of "DOUGLAS and his minions:"

"As the matter now stands, far more than at any former period of our history, we maintain that *a failure to abide by the laws of the Democratic party is the HIGHEST CRIME that a representative can commit.*"

GIVES IT UP!—The Belshazzar of the Washington *Union* begins to see the handwriting on the wall, in Kansas. In its issue of Thursday, the Editor says:

A single despatch embraces all the returns as yet received from Kansas. No opinion can be formed of the result of the vote on the English proposition from these figures; but its defeat may be set down as probable.

That's so!

Letter of Gov. Randall to the U. S. Land Office.

EXECUTIVE OFFICE, Madison, Wis., August 3, 1858.

Hon. Thos. A. Hendricks, Comm'r Land Office:

SIR:—Your letter of July 23d, enclosing the copy of a communication from N. P. Stanton, Esq., President of the La Crosse & Mil. Rail Road Co., is received. In my letter of the 4th February, to your department, I did not give at length the reasons for my request that further action be suspended by the Land Department until further information from the Executive Department of this State. I have given them frequently since that time to Mr. Stanton, and to the Directors of the La Crosse and Mil. R. R., and Mr. Stanton knows them full well, and that the same views were entertained by nearly the entire Legislature of this State during the last winter. Mr. Stanton and the entire Board of Directors of the La Crosse & Mil R. R. Co. have known these objections for six months, and have done nothing, in my judgment, towards a compliance with the law, but on the contrary have been using a large amount of Land Grant Securities, at a most inexcusable sacrifice to build a piece of Rail Road from Tomah to the city of La Crosse, entirely off the line of road for the building of which the grant was made by Congress, and which it is not pretended by the Company that they were authorized to build with funds derived from the sale of land belonging to that grant, or by the sale of securities based upon that grant.

The act of Congress approved June 3d, 1856, "granting land to the State of Wisconsin to aid in the construction of Rail Roads in said State," provided in the first section "that there be and is hereby granted to the State of Wisconsin, for the purpose of aiding in the construction of a Rail Road from Madison or Columbus by way of Portage City to the St. Croix River or Lake between townships twenty-five and thirty one, and from thence to the west end of Lake Superior and to Bayfield, and also from Fond du Lac on Lake Winnebago *northerly* to the State line, every alternate section of land designated by odd numbers, for six sections in width on each side of said Roads respectively," &c. The second *provision* of section one reads, "That the lands hereby granted *shall be exclusively applied in the construction* of the road for which it was granted and selected, and shall be disposed of only as the work progresses, *and the same shall be applied to no other purpose whatsoever.*"

Sec. 3 reads: "And be it further enacted that the lands hereby granted to said State shall be subject to the disposal of the Legislature thereof, for the purpose aforesaid, and no other" &c.

The Legislature of this State, by an act approved Oct 11th, 1856, authorized the La Crosse & Milwaukee Rail Road Co. to build the road for the western division contemplated by the act of Congress, and to aid in its construction granted to that Company the lands donated by Congress for that purpose, upon the conditions and reservations named in the act of the Legislature. The Legislature had a right to fix and prescribe the terms and conditions upon which it would confer that grant upon the La Crosse Company, the manner in which the Company should become invested with the lands, and determine in every respect the consideration the Company should pay, and the services it should perform, not inconsistent with the act of Congress. Through the act of the Legislature a contract was made by the State with the La Crosse Co. that the Company should build Railroads from the city of Madison in the county of Dane, and from the village of Columbus in the county of Columbia in the most direct and feasible route by the way of Portage City to the St. Croix River or Lake between townships twenty-five and thirty-one and from thence to Lake Superior and to Bayfield, &c. The Company became a party to the contract with the State by formal acceptance, undertook and contracted to build the road last above described, and as a consideration was entitled to receive and enjoy the lands granted to the State for that purpose, at the times, in the quantities, and upon the conditions named in the act. The first proviso of section 3 of the Legislative act, like a similar provision in the act of Congress, declares, "That the said lands shall be exclusively applied in the construction of that road for which it was granted and selected, and shall be disposed of only as the work progresses, and the same shall be applied to no other *work* whatever." It fixed the point of commencement of the roads at Madison and Columbus, their junction at Portage City, and the termination at the west end of Lake Superior and Bayfield.

By the second section of the act the State required of the Company, and the Company contracted, to build or construct, on the most direct and feasible routes from Madison to Portage City and from Columbus to Portage City and simultaneously, as nearly as practicable, the *said roads*, both to be completed by the last day of December, A. D., 1858, and for the purpose of estimating and selecting lands granted by Congress, the city of Madison was designated as the point of commencement of said road. Section 4 of this act of Congress provides, "That the lands hereby granted to said State shall be disposed of by said State only in the manner following, that is to say: That a quantity of land not exceeding one hundred and twenty sections, and included within a continuous length of twenty miles of roads respectively may be sold; and when the Governor of said State shall certify to the Secretary of the Interior that any twenty continuous miles of either of said roads are completed, then another like quantity of land hereby granted may be sold, and so from time to time, until said roads are completed." It will be here seen that the State might sell one hundred and twenty sections of land before any road was completed, and after that another one hundred and twenty sections for any continuous twenty miles completed. In other words for the first twenty continuous miles completed, the State might sell two hundred and forty sections of land.

The act of Congress did not fix any point of commencement for estimating and selecting the lands granted by Congress; but the act of the Legislature fixed it at Madison, and the first hundred and twenty sections included within continuous miles are to be selected within the first twenty miles and the one hundred and twenty sections for the first twenty miles completed, making two hundred and forty sections for the first twenty continuous miles completed, are to be selected within the first twenty miles of said road, and within six sections in width on each side of the same, or within 15 miles on each side of the road.

If the act of the Legislature had simply fixed Madison as the point of commencement of said road, for the purpose of estimating the lands granted, it might authorize a different construction if that were the only ground for such construction. But Madison was fixed as the point of commencement of said road, not only for the purpose of estimating, but also for the purpose of selecting, the lands granted by Congress.—With this view the second proviso of section 4 of the act of the Legislature says, "That the title of said lands vest in the La Crosse & Milwaukee Railroad Company in the manner following, that is to say: whenever twenty continuous miles of the said road shall have been completed, so as to admit of regular running trains on the same, the Governor shall certify to the Secretary of the Interior, the fact that such twenty continuous miles of such roads are completed as aforesaid, when the title of two hundred and forty sections of said lands shall vest in the La Crosse & Milwaukee Railroad Co, and when the second twenty continuous miles of the road shall have been completed so as to admit of running regular trains on the same, the Governor shall certify as above, and thereupon a further quantity of one hundred and twenty sections of said lands shall vest in said Company, and so from time to time until said roads are completed." For the first twenty miles of road completed the Company is entitled to two hundred and forty sections of land, and for the second twenty miles completed to one hundred and twenty sections, *and for the purpose of estimating and selecting the lands granted, Madison is designated as the point of commencement of said road; the first two hundred and forty sections must be selected for the first twenty miles.*

The act of the Legislature granting the lands to the La C. & Mil. R. R. Co. required the roads from Madison to Portage and from Columbus to Portage to be completed by the last day of December, A. D., 1858. The Company bought the law, by a system of bribery and corruption unparalled in the history of civilized nations, and under it bought themselves into a contract to complete these two roads to Portage within the time specified, and are bound by their contract. Yet, notwithstanding the great interest involved indifferent to their undertaking, almost two years have elapsed, and not one single mile of railroad has been completed by that Company between Madison and Portage City, or between Columbus and Portage City. Sixty miles of railroad must be completed within five months by that Company in order fully to comply with the law and its contract. Six months have elapsed since my views were known to the Company, and since they were informed, through interviews I had with various Directors of the Company, that I would give no certificate until the Company commenced and prosecuted the work upon that part of the road to be completed the present year; and still no efforts made or steps taken towards fulfilling this part of the contract with the State. The Company has not been taken by surprise. I gave the information thus early in order that something might be done to avoid the difficulty. The Directors of the Company have not hesitated to declare that it is impossible for the Company to fulfil its contract, and still it cries for land. It is breaking its contract with the State in failing to build the roads from Madison and Columbus to Portage City, and insists upon pay for breaking it.

Independent of considerations which I have before maintained, the fact that the Legislature limited the time within which the roads from Madison and Columbus to Portage City were to be completed to the last day of December of the present year, shows that its intention was to have that part of the road first completed, and gives peculiar force to the construction which I am compelled to put upon the law. The State has, otherwise, no security that the roads from Madison, and from Columbus to Portage City will ever be completed. The State could bring no suit against the Company to recover damages for its failure to perform, nor could the State commence, and prosecute any proceedings in any court to compel the Company to perform.—The State would be entirely at the mercy of the Company. The latter could do whatever it chose, and leave undone whatever it chose. It could build a piece of road where the value of the lands would warrant a speculation, and refuse or neglect to build where the lands were poor, thus entirely avoiding the intention of Congress in making the Grant to the State, and the intention of the State in conferring the Grant upon that Company.

Again, the act of Congress and the act of the Legislature both declare that the said lands shall be exclusively applied in the construction of that road for which it was granted and selected, to be disposed of only as the work progressed, and "the same shall be applied to no other work whatever." As a part of its contract the Company agreed, in accepting the Grant, that the lands shall be applied to no other purpose than to build a railroad "from the city of Madison in the county of Dane, and from the village of Columbus in the county of Columbia, on the most direct and feasible route by the way of Portage City to the St. Croix River between townships twenty five and thirty-one, and from thence to the west end of Lake Superior and to Bayfield." In direct violation of this contract, this Company contracted to pay and have paid a very large amount of Land Grant bonds at a sacrifice of near one million of dollars on their par value, to build a branch of the L. C. & M. R. R. or a part of railroad, from Tomah to the city of La Crosse, which it is not pretended is the line of the road intended by the act of Congress, and by the act of our Legislature. So the lands, or securities based upon the lands, granted by Congress, are being diverted from their legitimate purposes, and applied to purposes entirely foreign from the design of Congress, in building roads or parts of roads, not intended to be aided by the Grant.

All this is matter of record proof. I am called upon as the Executive of this State, to wink at these failures of contract and diversion of funds, and to sit quietly by while the munificent grant made by Congress is encumbered by mortgage bonds, and the securities sacrificed at 30 cents on the dollar, for purposes never intended by the law making power. The Grant was made for the purpose of increasing facilities for travel and the transaction of business upon the line designated, and for the purpose of developing the resources and hastening the settlement of the waste and unsettled portions of the State. The lands, or the money arising from their sale, cannot be devoted to any other purpose, be used to build any other roads, or appropriated to pay old debts or the interest on old debts contracted before that Grant was made by Congress. My predecessor, in my judgment, gave his certificate erroneously. I submit that this is not a matter of difficulty between the United States and a rail road company, but a matter between this State and the La Crosse and Milwaukee R. C. Co., to be settled and determined by the authorities and courts of this State. The General Government deals with the State, through its properly constituted authorities. In regard to the Grant, the State, as to the Government, stands in the light of a trustee. The State is bound to see the lands properly disposed of by the company to which, on stipulated conditions, it turned over the Grant. The State and the La Crosse Company must settle this matter between themselves, and by the act of our Legislature, the deeds of conveyance of the lands are to be made by the State authorities to the company, as fast as it is entitled to them. I have no personal controversy with that company and never have had; nor have I ever had any of any kind with any of its old directors, or present ones.

The La Crosse and Milwaukee R. R. enterprise is one of great importance to the State, and there is no hostility towards it, either among the public authorities, or the people. There is no disposition to embarrass the company, or to thwart its efforts to escape difficulties into which it has been plunged by bad men. I do not mean here any disrespect to the present Board of Directors. There is no desire to deprive the company of the Land Grant. All reasonable extension of time will be freely given to the company, to enable it to fulfil its contract, if it will but manifest a disposition to perform. Just as fast as it builds the Land Grant road, it shall have certificates and lands. I regret exceedingly the unpleasant position in which I am placed towards the company, and nothing but a sense of imperative duty to the State has forced me into it. I have no power over the action of the Department at Washington, but in behalf of this State, I protest against the issue of any patent to the State, of lands granted by Congress, until the question is fully settled here, that by law the company is entitled to them. The policy adopted in the west for building railroads, has been a bad one.—Building roads *to make business* instead of *to accommodate business*, on promises to pay, is a false system. Directors grow rich, the roads languish, and stockholders suffer. I advised against such a system, years ago. I anticipated the bitter ends that by such courses is sure to come. I fear the ruin, and suffering, and bitterness it brings in its train. It is not confined to one road, or to a few. I must execute the law as I understand it. I have sworn to do so, and "without fear, favor, affection or hope of reward," in this as in all things, I will protect the right of the State, and the interest of the people of the State, so far as I have the power, regardless of any locality, combination or influence.

Very respectfully,
Your obedient servant,
ALEX. W. RANDALL.

About the "Douglas Victory" in St. Louis.

"Why don't you battle slavery where it exists? Why don't you preach Abolition where there are slaves to be freed?" asks modern democracy; "*we* are as much opposed to slavery as you are, but we don't see the use of decrying an evil where it has no existence. Attack slavery where it is and we are with you."

Frank Blair took these people at their word. He is and long has been a slaveholder; he lives and has long lived in a Slave State. Upon full consideration he judged free labor preferable to slave, and resolved to do his best to substitute the former for the latter. On this issue he fought his late battle; on this issue (through the running of a third candidate) he is beaten. In politics he is, with his father, of the Jackson-Benton-Democratic Hard-Money school, and a consistent observer of its precepts. Yet he is beaten because he is for emancipation, and Northern Democracy (of the sham order) flings up its cap in triumph! Its organs are rejoicing, all over the country, at his defeat!—rejoicing that a pro-slavery Democrat succeeds him! Which shall we believe—these men's professions, or their acts?

SHOCKING ACCIDENT.—Mrs. A. L. Miller, wife of W. H. Miller, of Deerfield, in this county, was killed on the evening of the 1st inst., by being thrown from a horse and dragged nearly a mile, her foot remaining in the strap above the stirrup, where it was placed, the stirrup being too long.

She had playfully mounted the horse, not intending to ride any distance, and was not more than four rods from the gate near her house, when she fell or was thrown, and letting go the bridle, the horse became frightened and ran off at full speed.

Two young men were standing at the gate at the time, and sprang forward to save her, but were too late. She was shockingly bruised, and it is probable, almost instantly killed.

Mrs. Miller was a kind and affectionate wife and mother, and a true christian.

She was 35 years old at the time of her death, and leaves a husband and two children, and a large circle of friends, to mourn her loss.

STEPHEN H. BRANCH TAKEN TO THE PENITENTIARY.—On Thursday afternoon, Stephen H. Branch was conveyed to the penitentiary on Blackwell's Island, there to undergo the punishment to which he has been most justly sentenced for his indecent and atrocious libels on Mayor Tiemann and others. He was spared the mortification of riding from the Toombs to the foot of 61st street in "the Black Maria" as other convicts do, and rode so far in a carriage accompanied by several of his friends and the sheriff. But once in the penitentiary on the island, his whiskers were shaved off, he was clothed in a prison suit, and was set to work like other criminals.—*N. Y. Commercial Advertiser, Aug. 6.*

RING THE BELLS.—The Vestrymen of Trinity Church have determined on celebrating the event of the first successful working of the Atlantic Telegraph Cable by ringing a merry peal on their set of bells for an hour, after the transmission of the first message.

We would suggest that the churches throughout the country should follow the example of Trinity; and also that the same hour a general salute be fired throughout the Continent.—*N. Y. Express, Aug. 6.*

ABSOLUTE SUCCESS OF THE CABLE.

TRINITY BAY, N. F., Saturday, Aug. 7, '58.

The complete success of the Atlantic cable is placed beyond all doubt. Signals are now being made through the whole extent of the cable, but it is unlikely that the cable will be opened for business for several days, or perhaps weeks, as the electricians will require time for a series of experiments with their recording instruments.—Due notice will be given of the opening of the line for business.

THE CABLE LANDED AT VALENTIA BAY.

TRINITY BAY, August 7, 1858.

To the Associated Press:

The Atlantic Telegraph Cable was successfully landed here yesterday morning, and is in perfect order.

The Agamemnon has landed her end of the cable, and we are now receiving signals from the Telegraph House at Valentia.

The United States Steamer Niagara, and H. B. M. steamers Gorgon and Porcupine, leave here for St John's to-morrow.

Due notice will be given when the Atlantic Telegraph will be open for public business.

THE LOG OF THE EXPEDITION.

TRINITY BAY, Aug. 7, 1858.

The following are extracts from the journal of Mr. Field, in relation to the Atlantic Telegraph Expedition:

Saturday, July 17.—This morning the Telegraph Fleet sailed from Queenstown, Ireland, as follows: The Valorous and Gorgon at 11 a. m., the Niagara at 7:30 p. m., and the Agamemnon a few hours later. All the steamers are to use coal as little as possible in getting to the rendezvous. Up to 5 p. m., clear weather and blue sky; from 5 to 9 p. m. overcast, threatening weather, and drizzling rain; from 9 to 12 p. m. overcast, hazy and squally.

Sunday July 18.—The Niagara passed Cape Clear in the morning; wind varying from W. by W. N. W.; heavy atmosphere; cloudy and squally.

Monday, July 19.—Wind varying from W. to N. W.; hazy atmosphere; cloudy and rainy.

Tuesday, July 20.—Wind from N. W. to N.; hazy atmosphere; cloudy and squally.

Wednesday, July 21.—Wind N. W., with a slight variation to the eastward; weather cloudy.

Thursday, July 22.—Blue sky and cloudy.

Friday July 23.—Wind from W. by S. to W. S. W.; cloudy and hazy atmosphere and rain.

The Niagara arrived at the rendezvous, lat. 52 5, lon. 32 40, at 8:30 p. m.

Saturday, July 24.—Wind W. N. W.; hazy atmosphere; cloudy and squally.

Sunday, July 25.—The Valorous arrived at the rendezvous at 4 a. m.; weather calm; hazy atmosphere. Capt. Oldham, of the Valorous, came on board of the Niagara.

Tuesday, July 27.—Calm weather; hazy atmosphere. The Gorgon arrived at the rendezvous at 5 p. m.

Wednesday, July 28.—Light N. N. W. wind; blue sky and hazy atmosphere. The Agamemnon arrived at the rendezvous at 5 p. m.

Thursday, July 29.—Lat. 52.59 N., lon. 32 27 W. Telegraph fleet all in sight, sea smooth; light wind from S. E. to S. S. E.; cloudy.—Splice made in the cable at 1 P. M.; signals through the whole length of the cable on board both ships perfect; depth of water, 1,550 fathoms.

Distance to the entrance of Valentia harbor, 813 nautical miles, and from there to the telegraph house the shore end of the cable is laid.

Distance from the entrance of Trinity Bay, N. F., 822 nautical miles, and from there to the telegraph house, at head of Bay of Bull's Arm, 60 miles, making in all 882 nautical miles.

The Niagara has 60 miles further to run than the Agamemnon.

The Niagara and Agamemnon have each 1,100 nautical miles of cable on board; about the same quantity as last year.

At 7.45 p. m. ship's time, or 10.5 p.m. Greenwich time, signals from the Agamemnon ceased, and the tests applied by the electricians showed that there was a want of continuity in the cable, but that the insulation was perfect.—Kept on paying out from the Niagara very slowly, and was constantly applying all kinds of electrical tests until 6 p. m., ship's time, and 11.30 p. m., Greenwich time, when we again commenced receiving perfect signals from the Agamemnon.

Friday, July 30.—Lat. 51 50 N., long. 34 49 W. Distance run by observation in the last 23 hours, 89 miles. Paid 131 miles 900 fathoms of the cable, or a surplus of 42 miles 900 fathoms over the distance run by observation—equal to 48 per cent. Depth of water 1,550 to 1,975 fathoms; wind from S. E. to S. W.; weather thick and rainy, with some sea. The Gorgon in sight.

At 2:50 a. m., finished the main deck coil and commenced paying out from the berth deck.—Seven hundred and twenty-three miles from the Telegraph House at Bay of Bull's Arm, Trinity Bay.

At 2:21 p. m. received signals from on board the Agamemnon that they had payed out 150 miles of the cable.

At 2:34 p. m. had payed out from the Niagara 150 miles of the cable.

Saturday July 31.—Latitude 51 5 N.; longitude 38 14 W. Distance run by observation in the last 24 hours, 137 miles. Payed out 159 miles 853 fathoms of the cable, or a surplus of 22 miles 843 fathoms over the distance run by observation—equal to 18 per cent. Depth of water 1,657 to 2,250 fathoms. Wind moderate, S. W., and from 6 a. m., N. W. by N. Weather cloudy, a little rain, and some sea. The Gorgon in sight.

Total amount of cable passed out, 291 miles 730 fathoms. Total distance run by observation, 226 miles. Surplus cable payed out over the distance run by observation, 65 miles 730 fathoms—equal to 29 per cent. 656 miles from the Telegraph House.

11:4 p. m.—Had payed out of the Niagara 300 miles of the cable.

At 2:45 p. m. received signals from the Agamemnon that they had payed out from her 300 miles of the cable.

At 5:27 p. m. finished the coil on the berth deck, and commenced paying out from the lower deck.

Sunday, Aug. 1.—Lat. 50 32 N., lon. 41 65 W. Distance run by observation during the last 24 houses, 145 miles. Paid out 164 miles and 683 fathoms of the cable, or a surplus of 19 miles and 580 fathoms over the distance run by observation—equal to 14 per cent. Depth of water 1,950 to 2,424 fathoms. Wind moderate, and fresh from N. N. E. to N. E. Weather cloudy and misty, and heavy swells. The Gorgon in sight.

Total amount of cable paid out, 456 miles and 400 fathoms. Total amount of distance run by observation, 371 miles. Total amount of surplus cable paid out over the distance run, 85 miles and 600 fathoms—equal to 23 per cent. 511 miles from the Telegraph house.

At 8:5 p. m., finished paying out the coil on the lower deck, and changed to the coil in the hold.

Monday, Aug. 2.—Lat. 49 42 N., lon. 45 48 W. Distance run by observation in the last 24 hours, 154 miles. Payed out, 177 miles and 15 fathoms of the cable, or a surplus of 23 miles and 100 fathoms over the distance run—equal to 15 per cent. Depth of water, 1,600 to 2,385 fathoms. Wind N. W. Weather cloudy.

The Niagara getting light, and rolling very much, it was not considered safe to carry sail to steady the ship, for in case of accident it might be necessary to stop the vessel as soon as possible.

At 7 p. m., passed and signaled the Cunard steamer from Boston to Liverpool.

Total amount of cable payed out, 633 miles 500 fathoms. Total distance run by observation, 525 miles. Total surplus cable payed out over the distance run, 108 miles 500 fathoms, or less than 21 per cent; 257 miles from the Telegraph House.

At 12:88 a. m., ship's time, and 3:58 a. m., Greenwich time, imperfect insulation of the cable was detected in sending and receiving signals from the Agamemnon, which continued until 5:40 a. m., ship's time, or 8:40 a. m., Greenwich time, when all was right again. The fault was found to be in the ward-room, or in about 60 miles from the lower end, which was immediately cut out and taken out of circuit.

Tuesday, Aug. 3.—Lat. 45 17 N., lon. 49 23 W., distance run by observation in the last 24 hours, 147 miles; payed out 161 miles; 61 fathoms of the cable, or a surplus of 14 miles 613 fathoms over the distance run, equal to 10 per cent. Depth of water, 742 to 1,827 fathoms.—Wind N. N. W. Weather pleasant. The Gorgon in sight.

Total amount of cable payed out, 795 miles 300 fathoms. Total distance run by observation, 672 miles. Total surplus cable payed out over the distance run, 123 miles 300 fathoms—less than 19 per cent. Two hundred and ten miles from the Telegraph House.

At 8:25 a. m., finished paying out the coil from the hold, and commenced paying out from the ward room coil—305 miles of the cable remaining on board at noon.

At 11:15 a. m., ship's time, received a signal from on board the Agamemnon that they had payed out from her 780 miles of the cable. During the afternoon and evening passed several icebergs.

At 9:10 p. m., ship's times, received a signal from the Agamemnon that she was in water of 200 fathoms.

At 10:20 p. m., ship's time, the Niagara was in water of 200 fathoms and informed the Agamemnon of the same.

Wednesday, Aug. 4.—Lat. 48 17 N., lon. 52 43 W., distance run by observation, 146 miles. Payed out 154 miles 100 fathoms of the cable, or a surplus of 8 miles 860 fathoms over the distance run—equal to 6 per cent. Depth of water less than 200 fathoms. Weather beautiful and perfectly calm. The Gorgon in sight.

Total amount of cable payed out, 949 miles 660 fathoms. Total amount of surplus cable payed out over distance run 131 miles, 660 fathoms—about 16 per cent. Sixty-four miles to the Telegraph House.

At noon received signals from the Agamemnon that they had payed out from her 940 miles of the cable.

Passed this morning several icebergs.

Made the land off the entrance to Trinity Bay at 8 a. m. Entered Trinity Bay at 12:30 p. m.

At 2:20 p. m, ship's time, commenced sending signals again to the Agamemnon. At 5 p m., saw her Majesty's steamer Porcupine coming to us. At 7:30 p. m, Capt. Otter of the Porcupine came on board the Niagara to pilot us to the anchorage near the Telegraph House.

Thursday, Aug. 5.—At 1:45 a. m., the Niagara anchored. Distance run since noon yesterday, 64 miles. Amount of cable payed out, 66 miles 353 fathoms, being a loss of less than 4 per cent.

Total amount of cable payed out since the splice was made, 1,016 miles 600 fathoms. Total amount of distance run, 882 miles. Total amount of cable payed out over distance run, 134 miles and 600 fathoms, being a surplus of about 16 per cent.

At 2 a. m. went ashore in the small boat and informed the persons in charge of the Telegraph House—half a mile from the landing—that the Telgraph fleet had arrived and were ready to land the end of the cable.

At 2:45 a. m. received a signal from the Agamemnon that she had payed out 1,010 miles of cable.

At 5:15 a. m. the telegraph cable was landed. At 6 a. m. the shore end of the cable was carried into the Telegraph House, and a strong current of electricity received through the whole cable from the other side of the Atlantic. Capt. Hudson then read prayers, and made some remarks.

At 1 p. m. H. M. steamer Gorgon fired a royal salute of twenty-one guns, and all day was discharging the cargo belonging to the Telegraph Company.

Friday, Aug. 6.—Have been receiving all day strong electric signals from the Telegraph House in Valentia.

Note.—We landed here in the woods. Until the telegraph instruments are all ready and perfectly adjusted, communication cannot pass between the two continents, but electric currents are received freely. You shall have the earliest intimation when all is ready, but it may be some days before anything is perfected. The first telegraph message between Europe and America will be from the Queen of England to the President of the United States, and the second his reply.

MOTHERS! MOTHERS! MOTHERS!

DON'T FAIL to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never-failing success in millions of cases.

We believe it is the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in children, whether it arises from teething or from any other cause.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well-tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

AT THE MILWAUKEE Venereal Hospital, established for the cure of Syphilis, Seminal Weakness, and the infirmities of youth and maturity, by Dr. Barnes.

Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 12 Wisconsin Street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhœa, Gleet, Strictures, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain in the head or bones, and all Mercurial Affections, and all impurities of the Blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.

Dr. B. makes no charge for short consultations.—Those requiring much advice should enclose a small fee sufficient to compensate for the time required to write the answer.

An Ecclesiastical Clam-Bake.

BRISTOL, R I, July 29, 1858.

There is a very peculiar "institution" in this State of Rhode Island. To one who has never seen it, it is very attractive. There being no "Shelly" to celebrate its praise in verse, nor "Crabbe" to speak of its merits, perhaps a word from an humble individual may be regarded with interest. A little way out of the town of Bristol there is a grove, which grove to-day has been the scene of animation and delight. It appears that somewhere about 130 years ago the good people here thought they would establish an Episcopal Church, which they did under the name of St. Michael's. The history of this enterprise is one of varied light and shade. It has had its seasons of prosperity and of adversity.—When in 1723 their new English bell was broken in the harbor, their tones were sad; when in 1858 their beautiful and graceful belles pressed the green sward of Fox Hill, their hopes were bright; when in 1731 the Rev. Mr. Usher was required by a vote of the parish "to support all the widows of the church from what be received as his own salary," the times were hard; when to-day the worthy rector saw how ready his dear flock were to shell out, and yet how unshellish they were withal, he might have felt like embracing all the widows and the many children, for the joys which he felt But it appears that the ladies concluded to hold a feast of St. Michael's and all angels on the one part (which included their church and themselves,) and of clams, fish and such like on the other.

About 9 o'clock we were on the ground.—Tents were pitched and flags were waving.—Tables were spread, and upon a large platform the brass band exercised their skill in ecclesiastical tunes. By and by, carriages, wagons and carts began to empty their contents, until plenty of good things and good people were gathered together. Huge rounds of beef, pecks of salad, piles of confections, gallons of ice-cream, chickens, turkeys, pies, fancy baskets, toys, pincushions, and a thousand other things, were all arranged in order under the trees, and the ladies of Bristol and guests from all parts adjacent, to the number of about eight hundred, began to pour in. Among the crowd were the belles of Bristol—and famous belles they are—the gay people of Newport, the cultivated citizens of Providence, the intelligent people of Warren, and the refined inhabitants of the beatiful "Pop Squash," which deserves a more classic name.—Methodists, Baptists, Presbyterians, Congregationalists, Universalists, Episcopalians, formed one grand union over the treasures hid in the sand, or rather buried under the seaweed. The clergy of Rhode Island were well represented, and distinguished divines from Massachusetts, Pennsylvania, Maryland, and divers other States, added to the attractions of the clam-bake.

In one corner of the field might be seen iron bars placed upon the rocks, preparatory to the great frying operations in contemplation; down in many retreats, or under tents, little cliques were mixing condiments, or cutting up for dinner, and ranged along in solemn order were huge kettles, in which the chowder was to be made. Some fifty gallons of this savory soup were served up. Did you ever see it made?—Daniel Webster was a proficient in the art of chowderizing. First, salt pork is fried and placed in the bottom of the pot, and then layer after layer of onions, potatoes, fish, pepper, crackers, sage, salt, cloves, and lots of "yarbs," together with other things too numerous to mention, are boiled together, until the great dish of Cape Cod and the Providence Plantation is done. But all this isn't the clam-bake. That is the "peculiar institution." To be appreciated it must be seen. First, of course, you must have the clams (we had fifty bushels), then you dig a hole in the ground, not very deep, you pile in big stones, you put in about half a cord or more of good dry wood (that's what we did), you set fire to the wood and let it burn up or *down*, as you please; the stones heated, you pile on the clams; these you cover up with cart-loads of seaweed; you then spread a large sail over the whole—(I must break off here an instant to say that we put upon the clam-heaps, lots of fish done up nicely in cloths, which were very good after they were cooked—the fish, I mean)—and you have a big elephant in repose, or what looks amazingly like one.

No change is made in the peculiarly fragrant and fish-like smells which come up from the clams and fish, and are very appetizing, or in the information of the best modes of clam-baking and making chowder. About an hour after the the clams were put in, the tables were surrounded, and the elephant was disturbed, and we had our dinner. There sat the venerable Dr. Shepherd, the accomplished Mercer, the eloquent Tiffany, of Baltimore, the beloved Diocesan of Rhode Island, the able Howe of your city, the exalted Stowe, the Dimond of Hartford, and other divines not unknown to fame, surrounded by an array of female beauty and manly strength seldom combined to such an extent, even in this State of States. We had a pleasant time and the affair was successful. Nothing was needed to add to its charms, and our advice to you is, if you ever come into Rhode Island, and are invited to an ecclesiastical clam-bake, to go; but don't eat too much chowder, or too many clams, or you may have a little envelope before you, as I now have, inscribed, "Take a powder (dry) after," &c. Truly yours,

PROGRESS.

Correspondence of the N. Y. Tribune.

Trans-Atlantic and Behring's Straits Telegraphs.

SIR:—My attention has been called to your leader, of some days since, relative to a telegraph via Behring's Straits. Permit me to inform the public, through *The Tribune*, that in 1854 I laid the subject before his Majesty, Nicholas I., the late Emperor of Russia. The negotiation ended thus, viz:

1. The trans-Atlantic line from America to Europe, via Greenland, Iceland and the Faro Isles, being deemed the most practicable route, was to be prosecuted to success, Russia furnishing the means to complete it to St. Petersburg.

2. On the consummation of certain ideas—wholly with the Imperial Government, and which cannot transpire at present—the line from Moscow was to be extended across Asia to San Francisco. The route of that line was described in the Emperor's official journal at Moscow and St. Petersburg, in substance, as translated, viz:

Leaving St. Petersburg, Mr. Shaffner proposes to run his line to Moscow, or connect at the latter place with the Imperial lines already in operation; from thence to Kazan, across the Ural Mountains, into Asia, passing through Omsk, Kolivan, Kanek, Oudinsk, to Irkoutsk near Lake Baikal.

From Irkoutsk it is intended to run the line to the Sea of Ochotsk, either north to Yakoutak or south to the Amoor River, and thence along the coast of the Sea of Ochotsk to Iamsk, and across the Gulf to Cape Utkoloka, Kamschatka, and thence along the Aleutian Isles to Aliaska Peninsula or Cook's Inlet, in North America. From this point the line will be run along the Pacific coast to Oregon, and south to San Francisco, California. This range is entirely south of the latitude of St. Petersburg, and in fact the line can be carried around by Behring's Straits, and be south of the Arctic circle.

From San Francisco Mr. Shaffner proposes to run the line along the best route to the Salt Lake or Santa Fe, and thence to the western boundary of Missouri, where it will intersect the existing section of the California line, built by him a few years ago.

In conformity with my arrangements with the Government of Denmark, Norway, Sweden and Russia, it is my purpose to traverse the route of these lines entire. I am now organizing a corps for the examination of the trans-Atlantic route. I expect to leave Quebec in the spring, and then carefully survey Labrador, and thence, successively, Greenland, Iceland, the Faro Isles, and the water sections. When this is done it will be an easy matter to determine the electric and telegraphic requirements of the whole line.

Very respectfully your ob't serv't.

TAL. P. SHAFFNER.

☞ A novel form of locomotive has been tried lately with considerable success. The cylinders and working parts of the machine are placed above the boiler, instead of underneath, as usual, and the boiler is in consequence lowered, thus giving more stability to the engine, and bringing its centre of gravity more directly to the line of attraction. The removal of mechanism from under the boiler leaves a space available for the construction of a tank, which surrounds it in such a manner as to maintain against the boiler a sheet of feed water, which is there heated by the raidiating heat preparatory to its being fed in. The cylinders are encircled by jackets, and are placed in the smoke-box.

G. SIMMONDS,
SOLE PROPRIETOR AND MANUFACTURER OF
PURE OHIO
Catawba Brandy.
THIS Brandy has been manufactured for several years from the pure juice of the Catawba Grape, thus affording additional evidence, of the progress of American enterprise and industry, and of our ability to produce articles at home, equal to those made by any other nation.
The Ohio Catawba Brandy, not only equals but excels the best Imported Brandies, in purity and flavor. It is in fact the best Brandy known. This statement is fully corroborated by the certificates of our most distinguished analytical chemists.
The want of pure brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded a great public good. The Catawba Brandy posses all the good qualities claimed for the best imported liquors, and is of perfect purity and superior flavor, and a sovereign and sure remedy for
Dyspepsia, Flatulency, Cramp, Colic, Languor, Low Spirits, General Debility, &c.
NO FAMILY SHOULD BE WITHOUT IT.
RETAIL PRICE $1,25 PER BOTTLE.
Recommended by the physicians and druggists of the United States.
G. Simmonds has appointed J. P. & F. J. Ilsley, 141 East Water st., Sole Agent for State of Wisconsin, where dealers and customers please forward their orders.

IRON WORK.

Eagle Steam Foundry,
Nos. 294, 296, 298, 300, 302 and 304,
WEST WATER STREET, MILWAUKEE.
THE OLDEST ESTABLISHMENT IN THE CITY
TURTON & SERCOMB,
MANUFACTURERS of Steam Engines and Boilers, Flour and Saw Mill Gearing, Brass and Composition work, together with Castings of all descriptions.
Also manufacturers of the celebrated Haviland & Tuttle Patent Centre-Vent Water Wheel. It uses less water, in proportion to the power given, than any other wheel manufactured. It is adapted to either high or low heads of water, runs perfectly steady, and is not affected by ice or back-water, only in the loss of head. In addition to this, it can be sett with but little delay, and at no greater expense than ordinary wheels. It has given general satisfaction to all who have used it, and that, together with its durability, having been used in Messrs. Ludington & Co's Mill over seven years, without one dollar expense, gives it an entire superiority over all other wheels. Descriptive circulars forwarded on application.
Mill Stones, Bolting Cloth, Seive Wire, and Mill furnishings, of all descriptions, at the shortest notice.
We have always on hand a large supply of Turton & Son's celebrated Files.
Also, Steam and Water Cocks, Steam Guages and Whistles, Oil Pumps and Cups. Lignum Vitae of all sizes.
☞ Steam Engines of different capacity always on hand. Terms Cash.

REAL ESTATE,
Office, No. 1 Kneeland's Block.
CITY LOTS. LOTS. LOTS. LOTS. LOTS. PALMER & CO'S Addition. No. 21. One mile and a half from the Spring Street Bridge.
We have laid off the balance of our original purchase on Spring street into lots, and now offer them on the same terms as heretofore, viz: *One each hundred dollars of purchase money five dollars in advance, and three dollars per month thereafter until paid WITHOUT INTEREST.* The lots are beautifully situated on high ground in a healthful locality, and embraces some of the finest views about the city. They will bear examination.
The very low price at which they will be sold, together with the terms, commend them to the attention of all classes who desire a home and exemption from rents.—Youngmen, mechanics and laboring men, and tradesmen of small means have here an opportunity to invest that is within their reach. We have an agent on the property every day, after 3 P. M., to show the lots.

GRAIN CLEANER & SEPARATOR
HORTON'S PATENT
G. B. BINGHAM & BRO.,
Sole Manufacturers in Wisconsin.
THIS MACHINE is of recent invention, and surpasses all others in use for its perfections as a thorough Separator and Scourer. It has given entire satisfaction in New York, Pennsylvania and other States where it has been introduced, and we are confident it is better adapted to the cleaning of Western grain than any other ever introduced into this State. It is fire proof, not liable to get out of repair, requires but little power to run it, and the scouring cylinder so constructed as to render it unnecessary to be renewed for years. We respectfully invite all Western Millers to give us a call, and examine our machine, at the Bay State Foundry, Florida st., Milwaukee, Wis.

COMMERCIAL & FINANCIAL.

OFFICE OF THE DAILY SENTINEL,
Wednesday Evening, Aug. 11, 1858.

MONEY MATTERS—The money market continues quiet. Exchange is firm at 1¼ per cent, and there is a good demand for Gold at the same rate. Currency is plenty and Bank discounts easy on first class paper at the usual rate. There is a good outside demand for well secured paper at previous rates.

OUR MARKETS.

There was not much done in the produce market today, and prices of wheat are about the same as yesterday. Receipts are still light, but little new wheat, as yet, being ready for the market. The platform sales are very light. About 10,000 bus dry No. 1 sold at 90c f. o. b. Some new white winter wheat sold at $1 per bushel. Oats are 1a1½ higher and scarce. We note sales of 12,000 bushels at 46c f. o. b. We heard of no charters lately, but several vessels are loading on account of owners. The weather to-day has been comparatively cool and pleasant after the rain of last night. We quote to-day:

WHEAT—Firm and unchanged; No. 1 83a86; extra 88a 90c for good to choice milling; red winter 68a90c; white do 95a$1. Sales of 10,000 bus No. 1 at 90c f. o. b., and 100 bags (new) white winter at $1.

FLOUR—Firm; spring extra $4a4,50; winter extra at $4,75a5,25. No sales reported to-day. Our quotations are for good country brands; city brands range higher.

OATS—Scarce and 1a1½c higher; sales of 183 bags at 43¾, 124 bags at 44, 90 bags at 44½, and 12,000 bushels at 46 f. o. b.

CORN—Firm and scarce. Dry shelled in good demand at 65a67c.

BARLEY—Quiet at 45a50c.

RYE—Scarce, and quoted at 53a55c.

POTATOES—New 30a50c.

BUTTER—Fresh roll scarce, firkin nominal.

EGGS—Saleable at 11a12c.

HIDES—Green 6c, green salted 7c, and dry 12½a14½c.

WOOL—Quiet at 25a35c from common domestic to ¾ blood.

OATS.

In the Chicago market yesterday, Oats went up to 49c.

At Cincinnati there appears to be considerable excitement in the Oats market. The *Gazette* of Monday morning, says:

Oats are the great speculative staple of the grain trade just now. With reference to this article, the New York Stock Exchange is imitated to perfection. The bulls and bears are to life. Efforts to inflate and depress are put forth with an earnestness and recklessness that would do credit to the most inveterate bull or bear on Wall street. The stocks are chiefly in the hands of speculators, not only at this point, but in the interior, and the "outs," therefore, find it difficult to make any considerable headway against the "ins." Supplies, however, are not being diminished materially, for consumers are indisposed to take much part in the movement, while corn is obtainable at 6 c, and barley at 5 a6 c. In this connection we may remark, that two charges have been preferred against members of the Chamber of Commerce for making, as is alleged, false reports, in order to influence the market. The rules of the Chamber are exceedingly stringent upon this point, and parties are usually careful to make no reports that cannot be substantiated. The charges are to be investigated by the Board of officers.

NEW YORK MARKET.

NEW YORK, Aug. 11.

MORE TO BE ADMIRED THAN THE
RICHEST DIADEM
EVER
Worn by Kings or Emperors.

WHAT? WHY A BEAUTIFUL HEAD OF HAIR.

Because it is the ornament *God Himself* provided for all our race. Reader, although the rose may bloom ever so brightly on the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, *harsh* and *dry*, or worse still, if sprinkled with gray, nature will lose more than half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:

DR. WOOD:— NEW YORK, April 19th, 1858.
Dear Sir: Permit me to express to you the obligation I am under for the entire restoration of my hair to its original color. About the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative, it soon recovered its former hue. I consider your Hair Restorative as a very wonderful invention—quite efficacious as well as agreeable. I am, dear sir, yours truly,
S. THALBERG.

"Drych a'r Gwylledydd."
WELSH NEWSPAPER OFFICE,
113 Nassau st., April 12, 1858.
PROF. O. J. WOOD—*Dear Sir:* Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color; but to her, as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hair back to brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change in their hair.
CHARLES CARDEW.

NEW YORK, July 25, 1857.
PROF. O. J. WOOD: With confidence do I recommend your Hair Restorative, as being a most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers, which were almost white, have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It has also relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.
J. G. KILBY.

PROF WOOD—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grew out, and turned back to its former color, black. At this time it is fully restored to its original color, health and appearance, and I cheerfully recommend its use to all.
J. D. HOES.
Chicago, Ill., May 1, 1857.

The Restorative is put up in bottles of 3 sizes, viz: large, medium and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least 20 per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3.

GODFREY'S
EXTRACT OF ELDER FLOWERS
For softening the Skin and improving the Complexion.
EUGENE DUPUY, 609 BROADWAY, N.Y.
Sole Agent for the United States.

THE object of this Circular is to give publicity to the most valuable and efficient Remedy that has yet been introduced in the practice of Medicine, for the purpose of removing every unsightly appearance from the skin, and preserving to it to the latest period of life nearly all the firmness and freshness of youth. Extensive experience and minute observation have long satisfied the Proprietor that if applied as directed it will speedily remove any unsightly appearance, such as Tan, Sun-Burn, Freckles, &c., and quickly cure all Pimples, Humors and Eruptions which may disfigure the countenance; and will also impart to the Skin the most delightful softness and delicate clearness; in short, to preserve a pleasing complexion through life, nothing is required but the use of Godfrey's Extract of Elder Flowers, the sweetest and really the most perfect beautifier in Nature. This admirable preparation of Elder Flowers is very fragrant as a perfume. Elder Flowers have from the earliest ages been esteemed as a mild and harmless, yet most perfect beautifier of the Skin. Tan, Sun-burns, Freckles, Redness, &c., it will speedily and completely remove.
CHILDREN.—It is singularly beneficial and perfectly innocuous, even to the youngest infant.
SHAVING.—It is valuable beyond anything, annihilating every pimple, and all roughness rendering the skin soft and firm, preparing it as cooling for the razor.
FAMILY LOTION.—Godfrey's Extract of Elder Flowers will be found beyond all praise, and needs only a trial to be approved.
AGENTS.—Cary, Howard & Sanger, New York; Schieffelin Bros. & Co., New York; J. W. Norcross & Co., Boston and New York; F. U. Wells & Co., New York. And all other Wholesale and Retail Druggists

PITTSBURG, FT. WAYNE & CHICAGO
RAILROAD!
THIS New and Direct Route now open to New York, Boston, Pittsburgh, Philadelphia, Baltimore and Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities, Cincinnati, Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling, and all interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Rail Road line between
CHICAGO AND THE EAST.
FARE AS LOW AS ANY OTHER ROUTE.
Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other Routes.
Trains leave Depot on VAN BUREN ST., daily as follows:
6:00 A. M. 8.45 P. M.
With but one change of cars to Pittsburgh.
CHECKING BAGGAGE THROUGH
To Pittsburgh, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with Cleveland and Columbus Railroad to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.
Persons going East will find this route by far the most desirable both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.
Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.
Tickets for sale at all the principal ticket offices at the West, and at the Company's Office, No. 50 Dearborn St., opposite the Tremont House, Chicago, and at the office of the Lake Shore Railroad, Milwaukee, by A. G. Leland.

AYER'S CATHARTIC PILLS.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce the best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel the disease. They purge out the foul humors which breed and grow distempers, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to their whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill.—While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agents below named are pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of numerous complaints.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it.
